and Technical Information Policy, 179

Subject Index to Volume 35

Brief Communications, Letters, and Errata are denoted by the letters C, L, and E, respectively.

Abstracting and indexing services, coverage, 56(L)
Accreditation, curriculum mapping, 82
Aeronautics, dictionaries, compilation, 75
A Navigator of Natural Language Organized Data (ANNOD), 235
Arabic in computerized information interchange, 204
Artificial intelligence, 280
—, bibliography, 317
—, expert systems, 297
—, machine learning, 306
—, natural language processing, 291
Artificial intelligence: concepts, techniques, applications, promise, perspective on, 277
Automatic document classification, nearest neighbors, 149(C)
Automatic indexing, 3, 136(L), 325

Bibliographic coupling, 29
Bibliographic records, displays, 344
Bibliometric scaling, research, 194
Book reviews, 254, 373
Book use, models, 259

Catalog records, displays, 344
Chinese characters, structure, 372(L)
Circulation patterns, library systems, 118(C), 122(C)
Citation analysis, interdisciplinary research, 360
—, macroeconomics, 351
—, reading research, 332
—, social science literature, 11
Citation classics, interdisciplinary research, 360
Clustering algorithms, 268
Cocitation, 29
—, macroeconomics, 351
CODAR-U/FD, Arab/Latin computer code, 204
Coding methods, information retrieval, 248
Cognition, in online searching, 57(L)
Cognitive authority, 254
Computer-assisted instruction, online searching, 53, 129(C)
Computer displays, bibliographic records, 344
Computer science, and information science, 157
—, research activity, 369(C)
Computer technology, and information science, 164
Computer technology for Arabic input and output, 204
Computer vision, 280
Copyright, 67
Curriculum mapping, library and information science, 82

Dictionaries, aeronautics, compilation, 75
Displays, bibliographic records, 344
Document retrieval, clustering, 268
—, clustering, nearest neighbors, 149(C)
—, probabilistic models, 153(L)

Editor's note, 203
Education, library and information science, 185
Electronic delivery of documents and graphics, 45
Entropy principle, maximum, 153(L)
Errata, 134, 138
Evaluation of information, 254
Expert systems, 280, 297

Fair use, copyright, 67
Federal policy (U.S.), scientific and technical information, 179
File maintenance, subject authority, MEDLINE, 34
Full-text indexing, indirect information retrieval, 19
Full-text knowledge base, natural language retrieval, 235
Fully Automatic Syntactically Based Indexing of Text (FASIT), 136(L)
Fuzzy set theory, modeling journal binding decisions, 228

Goffman's indirect method of information retrieval, 19

Indexing, automatic, 3, 136(L), 325
Indirect method of information retrieval, 19
Information, evaluation, 254
Information flow, research, 194
Information industry, integration, 170
Information need, 124(C)
Information policies, United States, 179
Information processing, research, 194
Information retrieval, coding schemes, 248
—, history, 157, 164
—, indirect method, 19
—, maximum entropy principle, 153(L)
—, natural language processing, 291
Information science, education, 185
—, expert systems, 297
—, history, 157, 164
—, research, 153(L), 194
—, theory and practice, 135(L), 137(L)
Information science: retrospect and prospect, perspectives on, 155
Information seeking expressions, 124(C)
Information services, value, 136(L)
Information technology, history, 164
—, integration, 170
Infostructure, information industry, 170
Interdisciplinary research, citation analysis, 360
Interlibrary lending, electronic, 45
International information flow, social sciences, 11
International Meetings, admissibility of delegates, 56(L), 135(L)
Interviewing, online searching, 90
Invisible colleges, 29

JASIS, referees, 203
Journal article titles, information content, 222
Journal binding decisions, modeling, 228
Journal literature, reading research, 332

Keyword indexing, 325
Keywords, journal article titles, 222
Knowledge-based systems, 297
Knowledge representation, 280

Language acquisition, artificial intelligence, 306
Learning, artificial intelligence, 280, 306
Letters, 56, 57, 135, 136, 137, 153, 253, 372
Library and information science, curriculum mapping, 82
Library science, education, 185
—, and information science, 157
Library systems, circulation patterns, 118(C), 122(C)

Machine learning, 306
Machine translation, 373
Macroeconomics, cocitation, 351
Mapping, library and information science curriculum, 82
Markov models, book use, 259
Maximum entropy principle, in information retrieval, 153(L)
Medical Subject Headings (MeSH), 34
MEDLINE, subject authority, file maintenance, 34
Modeling, journal binding decisions, 228
Models, book use, 259
Multidimensional scaling, curriculum mapping, 82
—, library circulation patterns, 118(C), 122(C)

National Advisory Committee for Aeronautics, 75
Natural language, retrieval systems, 235
Natural language processing, 280, 291
Nearest neighbors, document classification, 149(C)
Networks, resource sharing, electronic, 45
Nomenclature for Aeronautics, compilation, 75
Non-Boolean searching models, 19

Online information-seeking behavior, 211
Online searching, computer-assisted instruction, 53, 129(C)
—, loss of information, 56(L)
—, pre-search interviews, 90
—, psychology, 57(L)
—, scientific inquiry model, 110
—, user satisfaction, 90
Online searching styles, 211

Perspectives on artificial intelligence: concepts, techniques, applications, promise, 277
Perspectives on information science: retrospect and prospect, 155
Pool, Ithiel de Sola, 253(L)
Pragmatic Approach to Subject Indexing (PASI), 325
Price, Derek John de Solla, 147, 372(L)
Psychology of online searching, 57(L)

Question–answering systems, artificial intelligence, 291

Reading research, journal literature, 332
Reference interviews, online searching, 90
Research, information science, 194
Research activity, computer scientists, 369(C)
Research policies in information science, 153(L)
Resource sharing, electronic, 45
Romanization standards, Arabic, 204

Scholarly migration, macroeconomics, 351
Scientific and scholarly text, spelling errors, 104
Scientific and technical information policies, United States, 179
Scientific inquiry, model for online searching, 110
Searching patterns, online systems, 211
Social sciences, international information flow, 11
SPEEDCOP SPelling, Error Detection Correction Program, 104
Spelling errors, automatic detection and correction, 104
Statistical selection, index terms, 3
String coding, information retrieval, 248
Subject authority, file maintenance, MEDLINE, 34

Text structuring, artificial intelligence, 291
Translation, 373
Typographic errors, automatic detection and correction, 104

United Kingdom, online searching, computer-assisted instruction, 53
Users, information seeking expressions, 124(C)
